

# Electronics Technician Intern

Please submit resume to [jeff.sondermeyer@coachcomm.com](mailto:jeff.sondermeyer@coachcomm.com) for consideration.

## Position Summary

The Electronics Technician Intern position will be located in our Auburn, AL corporate office. This candidate will possess strong organizational and problem solving skills and have the ability to debug hardware (primary) but have ability to configure and debug systems that have embedded firmware and software. This position will work closely with engineering team and our Principle Hardware Electrical Engineer

## Responsibilities:

- To be mentored and directed daily by Principle Hardware Electrical Engineer
- Attend the daily hardware standup meeting where possible
- Keep organized/detailed list of debug actions
- Report issues timely and concisely to Principle and Engineering Team.
- Assess priorities and reallocate daily

## Abilities

- Strong organizational, prioritization, and time management skills
- Strong problem solving skills
- Highly teachable
- Proven hardware debug skills
- Remove and replace various surface mount packages including 0402 passive components, SOT23 and QFNs using soldering irons and hot air guns
- Knowledge of analog electronics a plus (opamps, switch-mode power supplies, filtering, audio circuits, etc.)
- Learn application-specific support tools as needed
- Setup, run and take measurements using spectrum/logic analyzers, oscilloscopes, bench supplies and multi-meters
- Multitask and coordinate with other departments
- Ability to lift 50 lbs.

In addition, this position requires the Electronics Technician to be assertive and inquisitive while taking ownership of all hardware debug activities

## Educational Requirements and Experience:

- Currently seeking an engineering degree.
- Electrical and Computer Engineering or Computer Science degrees preferred with focus on hardware design.
  - Please provide list of technical classes completed.
- Experience in technical field desired.

## Job Type:

- 20-36 hours per week

## Required work authorization:

- United States
