WHAT COACHES ARE SAYING ABOUT TEMPO:

"Implementing the CoachComm Tempo system into our everyday routine has allowed us to run our fast pace system without missing a beat. Our athletes enjoy the music, and as a staff we are able to work game management situations. It has added an element to our preparation that has never been available until now."

Mike Gundy, HFC - Oklahoma State University

"Thanks to CoachComm, Tempo will definitely make our practice more efficient and run a bit more smoothly."

Billy Kirelawich, Director of Football Operations – University of Arizona

"It really helps the attitude at practice, the tempo at practice and keeps a little get up in your step and makes it more fun, too. The energy level it brings and that our coaches bring has a lot to do with our success."

Mark Hudspeth, HFC - University of Louisiana – Lafayette
