Safety Recommendations

WARNING – DANGER! Users should take special precautions to avoid the introduction of hazards when operating, installing, servicing, transporting, or storing this device and lithium-polymer batteries.

- Do not place unit in areas where it will be exposed to weather.
- Exercise extreme care when working with electricity, and always connect the device into a ground-fault interrupting circuit when working outdoors or near water.
- CBT-6BAY-01 should only be used at an altitude not exceeding 2000 m.
- Do not allow the power cord to become crimped, twisted, or frayed.
- Refer all CBT-6BAY-01 service to qualified CoachComm service personnel.
- When the CBT-6BAY-01 is exposed to electromagnetic (EM) disturbances, the device may show abnormal behavior.

Tempest® TMA-BAT-02 (white label) batteries are not compatible with the CBT-6BAY-01 charger.

Charger Operation

Battery charge time from empty is approximately 2.5 hours.

During static events, LED operation may display an errant charging status. It will only be temporary and will recover without damage to the charger or its contents.

Warranty

CoachComm X-System® products are warranted to be free from defects in materials and workmanship for a period of one year from the date of sale to the end user. The purchase of a maintenance and support plan is not a condition of coverage under this limited warranty; however, purchasing a plan does extend a product's warranty for an additional year.
