What coaches are saying about Tempo:

"The sound quality drove our purchase of eVenue. We can use it in multiple venues and split the system up to be used several times on the same day. Those were all critical factors, but the sound quality is absolutely phenomenal."

Curt Ellis, Asst. Supt. of H.R. - Saline Area Schools

"We quickly noticed the positive impact it had on the culture and productivity of our practice sessions. When the music starts to echo out across our practice field, our players and coaches know it's time to go work."

Kevin Wright, HFC - IMG Academy

"Unbelievable. I really think that eVenue itself was one of the key factors in bringing in the excitement, pumping in the sound, and it really helped our community. We're happy to have it in our stadium."

Glen West, AD/HFC - Brenham High School

"You're limited by your own imagination: we can take this out to a track and field day, turn around and take it to the baseball field, or even use it at the football stadium. Overall, it's a fantastic system."

Larry Davis, AD - Desoto ISD

Coordinate

Total Control

Tempo is TOTAL CONTROL over Practice

CoachComm revolutionized practice for teams like Oregon, Auburn, Mississippi State and many other teams who understand the importance of controlling practice and motivating young athletes. Student-athletes today have grown up with modern technology, and it takes more to motivate and engage them. Championship teams aren't built by practicing in the dark ages. Efficient practice time is essential to winning.

Tempo is an innovative practice management system designed to provide total control over practice through time management, motivation, and coordination tools. From anywhere on the field, Tempo provides control of practice scripts, music, sounds, communication, and the management of play clocks. Tempo is an easy and powerful tool for teams seeking a competitive edge. Prepare your team and get the winning advantage with Tempo.

Typical Tempo Field Configuration

1 Control

Total Control Over Practice

- Drive the **pace of practice** by keeping it moving and on schedule.
- Use your own **music and sounds**.
